

APOLLO PRO FLUID ROWER

Commercial Rower with a Heart of Steel

First Grade American Ash
Designed for Health Clubs

Perfect Commercial Platform

The Apollo PRO Fluid Rower is our entry level model for the commercial market. The strength and integrity of a steel frame defines the heart of the machine, wrapped in the highest quality, hand lacquered American Ash to create a synthesis of two complimentary materials. Attention to detail abounds in both form and function; individually numbered machines are made with passion and commitment, designed and crafted to provide years of satisfaction in the toughest environments.

Unparalleled Performance

Industry best on-water rowing emulation with natural catch and feel. **Adjustable resistance** at the turn of a dial, to keep health club members challenged and engaged. Our patented twin tank design provides the largest range of resistance to suit the broadest range of users, from deconditioned seniors to competitive athletes. **Instantly adaptable** to each user, allowing progression as fitness levels and abilities improve.

Compare the quality of finish, integrity of construction and attention to detail that make the Apollo PRO an inspired choice for any location, from the best homes to the toughest commercial environments. Our patented Variable Fluid Resistance will challenge and motivate every individual. It's an investment in the satisfaction of your members and is certain to increase the popularity of rowing, one of the most effective forms of exercise available, within your facility.

APOLLO PRO FLUID ROWER

FEATURES AND BENEFITS

- Adjustable Resistance, from feather light to Olympic challenge at the turn of a dial. Instantly adapts for progressive training, interval training or multiple users.
- No dead spots! Patented twin tank design with triple-blade, stainless steel impeller delivers instant catch and consistent resistance through the entire stroke.
- Ergonomic handle minimizes strain on hands, wrists and forearms.
- Smooth and silent seat action and seat that shapes to the user, with textured finish to prevent slip.
- Exceptional comfort assured.
- Easily adjusted footplates with secure heel capture and angled surface under ball of foot to assist leg drive.
- Durable belt drive - smooth, clean, quiet and maintenance free.
- Simplified assembly and virtually maintenance free.
- Transport wheels at front allow for easy movement.
- Low impact, non-jarring, total body cardio respiratory workout.
- Active recoil system to facilitate rapid stroke rate utilises extended bungee length and 2 x precision one-way bearings.
- Best emulation of actual rowing with the sensory stimulation of the sight, sound and feel of being on the water. Smooth, progressive and satisfying exercise action.
- Multi-level exercise monitor (with USB port for extended functionality): time, distance, 500M split time, strokes per minute, calories per hour, watts, interval training and (optional) heart rate.
- The strength of a steel frame wrapped in ethically produced, first grade American Ash from sustainable plantations.
- Stores in upright position 550x540mm (22x21") and assembled length 2135mm (84"), width 550mm (22"), height 540mm (21"). Maximum user weight 150kg (330lbs).
- Commercial Warranty: frame - 5 years; tank and seals - 3 years; non-wearing mechanical components - 2 years, other components 1 year limited.
