FEATURES & BENEFITS

10" FULL-COLOR TOUCH SCREEN WITH BROWSER POWERED BY ANDROID™ Browse the web* during any workout! With the built-in 10" full-color touch screen and browser Powered by Android™, every FreeMotion® Cardio machine delivers the ultimate motivation to your gym members. Now, they can check the news, read email, watch sports highlights, get on Facebook® and more! Plus, with wireless connectivity and a USB connection, console software is upgradable for the life of the product.

IFIT LIVE™ TECHNOLOGY BUILT-IN Get smarter workouts and faster results with iFit Live™ Technology. Featuring workouts Powered by Google Maps™, training with Jillian Michaels and personalized, goal-specific programs, this wireless technology is the ultimate workout experience! Speed, incline and decline controls automatically adjust to match terrain and maximize results. Now, users can customize their own fitness program, receive automatic workout downloads and manage their profile online.

INCLINE AND DECLINE TRAINING With up to 30% incline, users will recruit more muscle on the i11.9, targeting their quads and glutes. And, to perfect cadence and strengthen their legs for the downhill segments of the next marathon or 10K, the 3% decline adds variety and realistic training to any program. The lift motor, specifically designed for the Incline Trainer, delivers 1500 lbs. of lift force for consistent deck movement and stabilization.

FREEMOTION

17" FREEVISION™ HDTV – OPTIONAL UPGRADE › Add motivation to any workout with this optional upgrade. A wide viewing angle and dynamic contrast and color saturation combine for a beautiful picture. Individual product TVs deliver a more personalized, entertaining workout for every user. The FreeMotion® Cardio consoles feature integrated TV controls and are prewired for a fast and easy upgrade.

DIRECT REAR VELOCITY SYSTEM › This self-cooling, 5.0 CHP high-torque, brushless AC speed control motor is positioned at the back of the machine for a smoother running surface and easier maintenance.

INCLINE AND DECLINE TRAINING › With up to 30% incline, users will recruit more muscle on the i11.9, targeting their quads and glutes. And, to perfect cadence and strengthen their legs for the downhill segments of the next marathon or 10K, the 3% decline adds variety and realistic training to any program. The lift motor, specifically designed for the Incline Trainer, delivers 1500 lbs. of lift force for consistent deck movement and stabilization.

9 BUILT-IN WORKOUTS › Preset workouts deliver competition, weight-loss, map and HD video workouts to help users of all levels reach their goals. Quick console controls make it easy to get started!

EXTRA-LONG, CUSHIONED DECK › Featuring a commercial, double-layered, double-sided deck, the i11.9 Incline Trainer is built to last. Users can stretch out their stride with the 22" x 60" 2-ply, maintenance-free treadbelt and feel the incredible joint protection with built-in isolator cushioning.

QUICK WORKOUT CONTROLS › Quickly adjust speed, incline and decline with these convenient console controls. Members can personalize their workout with the touch of a button instead of scrolling through settings found on other equipment.

BUILT-IN WIRELESS CONTROLS › Connect each machine wirelessly to Cardio Theater, Broadcastvision™ Entertainment, MYE™ Entertainment, CardioVision and Fantasy™ audio broadcasting. Built-in compatibility eliminates the need for other hardware or wires.

ENTERTAINMENT CHARGING STATION › Charge an iPod®**, MP3 Player or phone during any workout with this convenient charging station. A headphone jack allows the user to listen to their music and Jillian Michaels during an iFit Live™ Workout.
