

ROTARY CHEST PRESS

- Unilateral press arms featuring Paramount's patented Advanced Rotary Technology®.
- Press arms easily adjust providing a quick choice of 3 different starting positions.
- Unique 6-position pivoting handle aligns with wrist to eliminate joint stress.
- Heavy-duty 6-position seat assembly with spring loaded positive locking pin.
- Available with up to 4 optional weight plate storage posts.

Machine Weight 325 lbs. (148 kg).

ROTARY TECHNOLOGY

Ergonomically and biomechanically correct, Advanced Rotary Technology® uses precisely designed press arms and patented adjustable handles to provide true unilateral movement and full articulation of both the shoulder and elbow joints. The 6 position handles accommodate a wide range of users with the same range of motion and pivot at the wrist joint to allow complete range of motion without impingement. The end result is greater muscle recruitment, more efficient workouts, and unlike other converging design concepts, equal benefits to all users regardless of conditioning or body size.

A: 5th Percentile Female
B: 50th Percentile Male
C: 95th Percentile Male
